- **Kod producenta:** KS-(100)
- **Producent:** Klimas Wkręt-Met
- **Rodzaj:** zaślepki
- **Średnica:** 67
- **Liczba sztuk w opakowaniu:** 100
- **Waga produktu z opakowaniem jednostkowym:** 0.01

Informacje o bezpieczeństwie

List of insulation and insulation safety warnings based on the requirements of Regulation (EU) 2023/988 on General Product Safety (GPSR): 1. Fire risk: Insulation materials can be flammable. Avoid contact with open fire, sparks and high temperatures. 2. Emission of harmful substances: Some insulation materials may emit harmful gases or dust during installation or use. Ensure proper ventilation of the room during and after work. 3. Skin and respiratory irritation: Some materials can cause irritation to the skin, eyes and respiratory tract. Wear protective clothing, gloves, glasses and a dust mask when working with materials. 4. Allergies: Some people may experience allergic reactions to the components of insulating materials. If you experience allergy symptoms, consult your doctor. 5. Construction load: Make sure that the structure of the building is able to withstand the additional load associated with the installation of insulation. 6. Moisture: Improperly mounted insulation can lead to moisture buildup, which promotes the growth of mold and fungi. Take care of the appropriate vapor barrier and ventilation. 7. Disposal: Used insulation materials should be disposed of in accordance with local environmental regulations. Do not burn them yourself. 8. Long-term contact: Avoid prolonged direct contact of insulating materials with the skin. After finishing work, wash your hands and other exposed parts of the body thoroughly. 9. Storage: Store insulation materials in a dry and well-ventilated place, away from heat sources and open fire. Protect against access by children and animals. 10. Professional installation: In the absence of experience, commission the installation of insulation to a professional team that has the appropriate qualifications and tools.
