IBM KOLANO ŁUK 90 DWUKIELICHOWY 15 CU ZACISK WODA

Cena	**12,99 zł**
Numer katalogowy	**ALP-13369097809**
Kod producenta	**P500201500000**
Kod EAN	**4011862767150**

Opis produktu

ŁUK MUFOWY DWUKIELICHOWY 90° PRESS (ZACISKANY) DN15 WODA

SYSTEM PRESS

- Conex Banninger,
- Wymiary **DN15** 90°,
- Łuk dwukielichowy 2K (mufowy)
- Temp. pracy -20 do +70°C

ZASTOSOWANIE

- woda (czar

PRODUCENT

IBP Instalfittings Sp. z o.o. członek ogólnoświatowej IBP Group, właściciel marek CONEX i Banninger.

Parametry produktu

- **Stan:** Nowy
- **Typ:** kształtka
- **EAN (GTIN):** 4011862767150
- **Kod producenta:** P500201500000
- **Marka:** IBP
- **Rodzaj:** kolanko
- **Materiał wykonania:** miedź
- **Średnica:** 15
- **Waga produktu z opakowaniem jednostkowym:** 0.08

Informacje o bezpieczeństwie

List of pipe and fitting safety warnings based on the requirements of General Product Safety Regulation (EU) 2023/988 (GPSR): * Material selection: Make sure that the selected pipes and fittings are suitable for the type of substance being transported (drinking water, wastewater, chemicals). * Temperature and pressure: Verify that the pipes and fittings are rated for maximum temperature and operating pressure in the installation. * Compatibility: Ensure that pipe and fitting materials are compatible with other installation components (e.g. gaskets, threads, adhesives). * Assembly: Follow the manufacturer's installation instructions, use the appropriate tools and techniques to avoid damage and leaks. * Tightness: Before starting the installation, check the tightness of the joints to prevent leaks. * Freezing protection: Protect pipes from freezing, especially in areas exposed to low temperatures. * Protection against damage: Avoid exposing pipes to impact, mechanical stress, or contact with sharp objects that can damage their structure. * Regular inspections: Periodically check the condition of pipes and fittings for signs of corrosion, cracks, or other damage. * Replacement of damaged components: Replace damaged pipes and fittings immediately to prevent breakdowns and leaks. * Work safety: When cutting and installing pipes, use appropriate personal protective equipment (e.g. safety glasses, gloves). * Disposal: Dispose of used or damaged pipes and fittings in accordance with applicable environmental regulations. * Availability: Provide easy access to pipes and fittings for inspection and possible repairs. * Markings: Keep clear markings on pipes and fittings to easily identify their type and parameters. * Storage: Store pipes and fittings in a dry, shaded place, away from heat sources and direct sunlight. * Fire safety: For pipes and fittings made of flammable materials, ensure proper fire protection. * Kids: Keep pipes and fittings out of reach of children to avoid the risk of swallowing small items or injuries.
