Informacje o bezpieczeństwie

List of bit safety warnings based on the requirements of General Product Safety Regulation (EU) 2023/988 (GPSR): * Eye protection: Always wear safety glasses when working with bits. Metal shards can damage your eyesight. * Stable attachment: Make sure the bit is properly fixed in the power tool holder. A loose bit can slip out and cause injury. * Suitable selection: Choose the right bits for the job and type of material. Using the wrong bit can lead to damage or damage to the material. * Safe use: Do not use damaged bits. A cracked or bent bit can break during operation and cause injury. * Hand protection:

Wear protective gloves when replacing bits. Sharp edges of the bits can cause cuts. * Storage: Store your bits in a dry and safe place, away from children. * Keeping clean: Regularly clean the bits from dirt and oil. A contaminated bit can be slippery and difficult to control. * Use the right tools: Do not use the bits as levers or for other purposes incompatible with their intended purpose.
