- **Rodzaj brzeszczotu:** do piły szablastej
- **Typ uchwytu:** uniwersalny
- **Liczba elementów w zestawie:** 2

Informacje o bezpieczeństwie

List of blade safety warnings based on the requirements of General Product Safety Regulation (EU) 2023/988 (GPSR). * Use appropriate personal protective equipment, such as safety glasses and gloves, to protect yourself from chipping and sharp edges. * Choose the right saw blades for the material you intend to cut to avoid tool damage and injury. * Regularly check the condition of the saw blades to ensure they are not cracked, bent, or worn out. Damaged saw blades can break during operation and pose a threat. * Ensure that the saw blade is properly attached to the tool to avoid it loosening or falling out during operation. * Do not overload the saw blade, apply the right pressure and cutting speed to avoid overheating and cracking. * Be aware of the risk of injury when replacing saw blades. Always disconnect the tool from power and use protective gloves. * Store saw blades in a safe place, out of reach of children, to avoid accidental cuts. * Use the saw blades according to the tool manufacturer's instructions to ensure safety and efficiency. * Pay attention to the cutting direction of the saw blade and make sure that it is consistent with the direction of the tool. * Do not use saw blades for purposes incompatible with their intended purpose, e.g. for prying or bending. * Keep your saw blades clean, remove impurities, and lubricate to

prevent corrosion and increase their durability.
