Informacje o bezpieczeństwie

List of key safety warnings based on the requirements of General Product Safety Regulation (EU) 2023/988 (GPSR): 1. Eye protection: Always use safety glasses when working with keys. Metal chipping or other contaminants can damage your eyesight. 2. Using the right tools: Use a wrench of the right size and type for your nut or bolt. Incorrect fit can lead to damage to the key or fastener, as well as injury. 3. Technical condition of keys: Regularly check the technical condition of keys. Damaged, cracked or worn keys can be dangerous to use and can break during operation. 4. Work safety: Do not use keys in places where there is a risk of explosion or fire. Sparks can cause flammable substances to ignite. 5. Avoiding excessive force: Do not use extensions on the keys to increase strength. This can lead to damage to the wrench or fastener, as well as loss of control and injury. 6. Key storage: Store your keys in a dry and secure place to prevent corrosion and damage. 7. Ergonomics: Work in a comfortable position to avoid overloading your muscles and joints. Avoid long-term work in an uncomfortable position. 8. Hand protection: Use protective gloves to protect your hands from abrasions and cuts. 9. Tool Cleanliness: Regularly clean your keys from dirt and grease to ensure a secure grip and safe operation. 10. Training and experience: Make sure you have the right skills and knowledge before using the keys. Improper use of tools can be dangerous. 11. Maintenance: Maintenance your keys regularly, lubricate moving parts to ensure smooth operation and avoid jams.
