Informacje o bezpieczeństwie

List of safety warnings for covers, films and pool tarpaulins based on the requirements of Regulation (EU) 2023/988 on general product safety (GPSR). 1. Risk of drowning: * Make sure that the pool cover is always completely removed before entering the pool. * Remember that children and pets can drown even in a small amount of water on the lid. Regularly remove the accumulating water. * Protect the pool cover from children's access when not in use. * Never allow children to play on or near the pool cover without adult supervision. 2. Risk of slipping: * Keep the pool cover clean and dry to avoid slipping. * Warn household members and guests of the potential danger of slipping on the wet pool cover. 3. Risk of mechanical injury: * Be careful when assembling and disassembling the pool cover to avoid injuries caused by sharp edges or heavy components. * Use appropriate tools and protective equipment when manipulating with the pool cover. 4. Risk of damage to the cover: * Regularly inspect the pool cover for damage such as cracks, tears or abrasions. * Do not use a damaged pool cover as this may increase the risk of accidents. * Store your pool cover in a dry and cool place, away from direct sunlight and extreme temperatures. 5. Load risk: * Avoid placing heavy objects on the pool cover as this may cause damage or breakage. * Remove snow and ice from the pool cover to prevent overloading. 6. Chemical risk: * If you use chemicals to maintain pool water, make sure they are safe for the cover material. * Follow the manufacturer's instructions for the use of chemicals and avoid their contact with the skin or eyes. * Regularly clean the pool cover from debris to prevent the accumulation of harmful chemicals.
