Informacje o bezpieczeństwie

List of safety warnings for hammers, cutters and chisels based on the requirements of General Product Safety Regulation (GPSR) 2023/988: 1. Always use appropriate safety glasses and work gloves to protect your eyes and hands from debris. 2. Check the tools before each use to make sure they are not damaged, cracked or worn out. Damaged tools can be dangerous to use. 3. Make sure that the workpiece is firmly fixed to prevent it from moving during operation. 4. Hit the tools with a hammer at the right angle to avoid slipping and uncontrolled impacts. 5. Do not use hammers with loose or damaged shanks. The cap must be firmly embedded in the hammer head. 6. Keep your tools clean and properly sharpened to ensure efficient and safe operation. 7. Store tools in a dry place, out of reach of children. 8. Do not use tools near flammable or explosive materials. 9. Be careful when working at height to avoid dropping tools and causing injury. 10. Use hammers, cutters and chisels for their intended purpose. Do not use them for tasks they are not adapted to. 11. Remember to keep a safe distance

from other people when working with tools.
