Informacje o bezpieczeństwie

List of safety warnings for trays and tables based on the requirements of Regulation (EU) 2023/988 on General Product Safety (GPSR). 1. Stability and Strength: * Make sure the tray or table is stable and sturdy. Instability can lead to tipping over and damaging the contents. * Do not overload the tray or table with excessive weight to avoid structural damage or accidents. 2. Material and Finish: * Check that the materials used to make the tray or table are safe and non-toxic. Avoid products from materials that contain harmful substances. * Make sure the finishes (e.g. varnishes, paints) are durable and safe for contact

with food (if applicable). 3. Edges and Surfaces: * Check that the edges of the tray or table are smooth and free of sharp elements that could cause cuts. * The surface should be easy to clean and resistant to fluid absorption to prevent the growth of bacteria and mold. 4. Folding/unfolding mechanisms (if applicable): * If the tray or table has folding or unfolding mechanisms, make sure they work smoothly and safely. * Check that the locking mechanisms are reliable to avoid accidental folding or unfolding. 5. Temperature resistance: * Pay attention to the resistance of the tray or table to high temperatures if it is to be used for serving hot drinks or dishes. 6. Usage & Storage: * Use tray or table as intended. Avoid inappropriate use that could lead to damage or accidents. * Store trays and tables in a dry and safe place to prevent damage or deformation. 7. Cleaning and Maintenance: * Regularly clean trays and tables according to the manufacturer’s recommendations. Use appropriate cleaning agents to avoid damage to surfaces. * Avoid using aggressive detergents or rough sponges that can scratch or damage the surface. 8. Children: * Make sure the tray or table is stable and safe in the presence of children to avoid tipping over and potential injuries. * Do not allow children to play with the tray or table as a toy.
